

24th January 2018

Dear Parent/Carer,

As part of our topic about transformation and to link to our class novel, we have arranged a visit from a number of the residents of Kielder Water Birds of Prey Centre on **Monday 12th March, 2018**.

This visit will allow the children to get 'up close and personal' with some of nature's most spectacular predators. They will be able to observe first-hand the adaptations of each species in order to survive in their habitats, including how each species has adapted to nocturnal or diurnal hunting.

As well as handling and flying the birds, the children will learn about Kielder's Conservation and Breeding Programmes and changes they, themselves, can make to ensure the survival of these magnificent creatures in the wild.

The cost of this unique and exclusive opportunity is **£7.50** per child and will provide the children with practical experience and enable them to observe evolution in action. Please pay through SIMS Agora under 'Events'.

Yours sincerely,

Mrs A Lightley
